PROFILE

Business Excellence Lead and Industrial Engineering graduate with experience in operational analytics, reporting automation and business process improvement. Build practical tools that turn ERP, sales and field data into clear management information. Combine analytical development with stakeholder coordination and hands-on customer service experience.

EXPERIENCE

National Mineral Water Company SAOG, Muscat, Oman

Business Excellence Lead

Jan 2026 - Present

- Lead Business Excellence and Analytics work, developing reporting systems and operational tools for Sales and executive management.
- Built and operate a reconciled sales intelligence platform covering performance, targets, customer trends and receivables, with manager-specific access and automated reporting.
- Translate operational reporting needs into KPI definitions, consistent data rules and practical workflows, coordinating with business stakeholders.
- Develop operational tools supporting customer-data quality, dispatch planning and fleet oversight.

Data Analyst

Feb 2025 - Dec 2025

- Developed sales, margin, returns and customer-growth reporting that became the foundation of the company's analytics platform.
- Cleaned and reconciled ERP and sales-system exports against finance totals to improve consistency across reports.
- Automated recurring reporting with Excel, Power Query and Python. Promoted to Business Excellence Lead in January 2026.

Abdul Wahab Office, Muscat, Oman

Salesperson

Mar 2024 - Jan 2025

- Assisted customers and supported service delivery in a showroom environment. Managed inventory to support accurate day-to-day operations.

Sultan Qaboos University, International Cooperation Office

Head of Volunteer Students

Sep 2022 - Aug 2024

- Led student volunteer teams supporting international programmes and visiting delegations, including Russian and Korean programmes.
- Coordinated schedules, logistics and stakeholder communication to support programme delivery and participants' experience.

Oman Refreshment Company, Oman

Procurement Trainee

Jul 2023 - Aug 2023

- Gained practical exposure to procurement workflows in an FMCG business, including supplier evaluation, purchasing and the flow of procurement information.

SELECTED DIGITAL PROJECTS

National Mineral Water Company

Sales intelligence and planning. Consolidated sales and receivables analysis with target tracking, customer insights, journey-plan adherence and data-based incentive calculations. Added forecasting and AI-assisted queries within the reporting platform.

Customer master workflow. Mobile customer-record enrichment and supervisor approval workflows supporting cleaner master data and ERP exports.

RoutelQ dispatch planning. A planning tool that converts sales orders into vehicle loads, delivery sequences and driver documents while accounting for capacity and delivery constraints.

Fleet management and GPS analytics. Vehicle custody records and GPS analysis to support fleet oversight.

EDUCATION

Sultan Qaboos University

BEng in Industrial Engineering with Honors

2024

GPA 3.66/4.0. Ranked first in the Industrial Engineering cohort. Dean's List of Honors across multiple semesters.

Selected academic projects: Hydrogen supply-chain network optimisation in Oman; office ergonomics evaluation; temporary shelter location modelling; demand forecasting; warehouse simulation using Arena.

TECHNICAL AND PROFESSIONAL SKILLS

Analysis and reporting: Advanced Excel, Power Query, KPI design, data cleaning and reconciliation, dashboards and clear management summaries.

Automation and systems: Python (pandas, openpyxl), SQL, HTML/JavaScript, AI API integration, GitHub; experience with ERP and sales-system data.

Business intelligence: Qlik Sense and Power BI; Timex ERP, Hyperion/Brio, RoutePro and SalesBuzz reporting data.

Industrial engineering: Process improvement, operations research, supply-chain modelling, quality control, CPLEX OPL, Minitab, Arena and MATLAB.

Communication and coordination: Stakeholder communication, programme logistics, customer service and Microsoft Office.

ADDITIONAL EXPERIENCE

Freelance tour guiding in Oman, helping visitors explore cultural and natural attractions. Earlier customer-service experience as a barista at Earthly Coffee and IT and mathematics tutoring at a tutorial centre.
